Introduction:-Educational evaluation is the evaluation process of characterizing and appraising some aspects of an educational process.

Google classroom is developed and initially released on 12 august 2014. Its operating system is ios and android. Use of type is education.

Website is- [classroom .google.com](http://classroom.google.com)

In short Google classroom is blended learning platform for schools that aims to simplify creating, distributing and regarding assignments in a paperless way. It has introduced as a feature of Google apps for education. Let's see how it is useful for parents to evaluate online.

Evaluation:-“Evaluation is a process that includes measurement and possibly testing but it also contains the notion of value judgment”

Online Evaluation: - now a day online evaluation is used at school, for pupils, for higher education like universities and for the education for adults. Today online evaluation means the use of the computer and internet to evaluate people who are involved in teaching learning process.

Process of evaluation of parents through Google classroom:-

1) **Assignments:**-assignments are stored and graded which can be seen by students and parent's .teachers may choose a file that can be treated as templates' that every student and their parents can edit.

2) **Communication:**-it's a best way to communicate with teacher and students or children and parents at a time on education. Children can also post to the class stream but moderated by teacher .parents can also get the idea of students study and progress.

3) **Time cost:**- teachers can add students and their parents by giving them code to join the class leaving the more time to teach. Teacher also can evaluate that how parents are attention towards their wards progress.

4) **Ways to use:-**solicit daily weekly or annual feedback from students and parents.

Share anonymous writing samples with students and parents.

Create by need groups for students and parents.

5) **Mobile application:-** it is available on mobile on android device with app teachers and students can communicate with each other and parents too. It's a basically paperless system.

Conclusion: -

it can be very useful online evaluation app for parent's evaluation. With this study of online evaluation of parents through Google classroom we can say that this app will be useful to evaluate parents also.
